

Morpheus Music PRO

5 Zone Music Server

Item Number MAV-MP

Morpheus Music PRO

Music Only Server

The Morpheus Music PRO has 5 Zones of true audiophile quality outputs that support all your local content and many of your favorite streaming apps including Deezer, Tidal, Spotify, SoundCloud, Pandora and Tune-In Radio just to name a few.*

Automatic Cover Art – Airplay – Remote Playback – Private Streaming - Net Radio in every zone

Tech Specs

The Music PRO utilizes an Intel processor with 4 TB internal storage running robust Linux.

NAS Expandable – No License Required.

Auto Feed CD-RW drive.

HD music quality with 32bit/192KHz output.

116db signal to noise ratio on every stereo channel

Remote Administration

The Music PRO is designed for the professional with remote web-browser based administration and easily integrates with major Home Automation Systems.

Where permitted by law the Morpheus Pro – Music encodes your Music in FLAC by default (MP3 is an option)

24 / 7 System Monitoring

We constantly monitor the health of all Morpheus Pro systems including cpu usage, memory, hard drive capacity and alert you whenever there is a concern. With Morpheus Watch you're always a step ahead of trouble.
